

# ALL SENSORS®

## PRESS RELEASE *For Immediate Release*

### **Surface Mount Basic Pressure Sensor**

***January 2007***

All Sensors Corporation of Morgan Hill, California has announced the introduction of a Surface Mount Basic Pressure Sensor. This announcement comes as industry demand for surface mounted pressure sensors is increasing. In addition to standard pressure ranges, an unprecedented 10-INCH H<sub>2</sub>O pressure range is also available with virtually zero position sensitivity. The Surface Mount Basic Pressure Sensor is RoHS compliant.

### **Package Features**

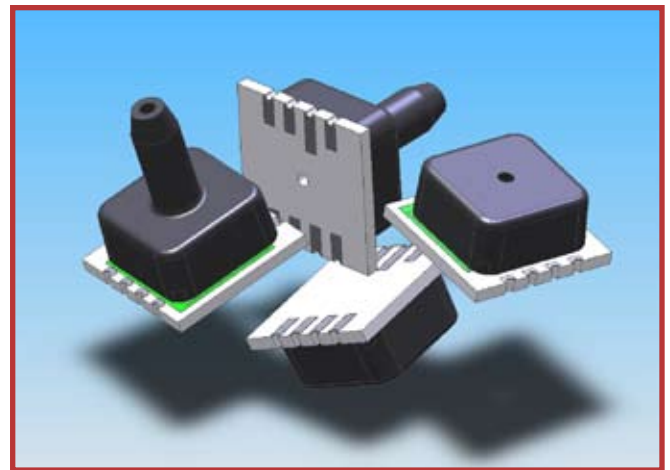

The Surface Mount Basic Pressure Sensor is available as a gage or absolute pressure sensor. Packages can be configured with a ported lid or a non-portable lid. The footprint of the device measures 0.3" x 0.3". The Surface Mount Basic Pressure Sensor is packaged as an 8-pad leadless chip carrier.

### **Electrical Features**

The Surface Mount Basic Pressure Sensor is available as a gage device with pressure ranges of 10 INCH H<sub>2</sub>O, 5 PSI, 15 PSI, 30 PSI, and 100 PSI, as well as an absolute pressure device with a range of 15 PSI. The output is ratiometric to the supply voltage and proportional to the applied pressure.

### **Price**

Contact factory for price. Surface mount sensors are available from stock, however, consult factory for real-time availability.
