PRESS RELEASE
For Immediate Release

ISO 9001:2008 Certification

June 2010

All Sensors Corporation of Morgan Hill, California has announced the completion of **ISO 9001** certification. This certification marks the recognition of the quality management systems in place at All Sensors. After years of practicing disciplined quality management systems, All Sensors was certified by TÜV SÜD America Inc. in June 2010. By ensuring and monitoring quality management systems, All Sensors will regularly review and evaluate individual processes and quality systems for effectiveness. As a result this practice will facilitate continued improvement among our quality management systems.
